BOT 201E
FUNDAMENTALS OF ECOLOGY

REGULAR – MAIN EXAM

BOT 201E: FUNDAMENTALS OF ECOLOGY

STREAM: BED (SCIENCE)

DURATION: 3 Hours

INSTRUCTIONS TO CANDIDATES

- i. Answer **ALL** questions from section A and any **FOUR** from section B.
- ii. Diagrams should be used whenever they serve to illustrate the answer.
- iii. Do not write on the question paper.

SECTION A (30 MARKS)

Question One

- a) Define the term ecology as viewed by Eudgene Odum (1963). (2 Marks)
- b) Differentiate between autecology and synecology. (4 Marks)
- c) A pond can be constructed on the surface of the earth to constitute an ecosystem. Is this a natural or an artificial ecosystem? Explain your answer. (3 Marks)
- d) Using a schematic representation, describe the structure of the ecosystem. (6 Marks)

Question Two

- a) Illustrate the continuous unidirectional flow of energy. (4 Marks)
- b) Using appropriate example, describe using the Zeroth law of thermodynamics. (4 Marks)
- c) Describe two types of fresh water ecosystems. (4 Marks)
- d) Differentiate between natality and mortality. (3 Marks)

SECTION B (40 MARKS)

Question Three

- a) Discuss four areas where the study of ecology can be effectively applied. (8 Marks)
- b) Describe any two types of pyramid of numbers. (2 Marks)

BOT 201E
FUNDAMENTALS OF ECOLOGY

Question Four

- a) State the second law of thermodynamics and explain what it signifies. (6 Marks)
- b) Outline four differences between a habitat and a niche. (4 Marks)

Question Five

- a) Describe three aspects of a nutrient cycle. (3 Marks)
- b) Illustrate the oxygen cycle showing the significance of all its components. (7 Marks)

Question Six

- a) Describe any three causes of population growth. (6 Marks)
- b) Differentiate resistance and resilience as types of ecological stability. (4 Marks)

Question Seven

- a) Discuss six parameters used to characterize a community as a whole. (6 Marks)
- b) Explain how invasive species affect environmental quality. (4 Marks)
